DermaSoft Hand Gel

A sanitising hand gel that kills germs without water, air dries in seconds and contains added moisturisers.

Product Information

Description

DermaSoft Sanitising Hand Gel is not a replacement for hand-washing. It is used in conjunction with a hand washing program to provide the ultimate in hand hygiene. DermaSoft Sanitising Hand Gel offers a more convenient means of sanitising your hands. The product requires no water, can be applied in seconds and eliminates disposal of paper towels. Wall mounted or free-standing units can be placed close to staff to promote use. DermaSoft Sanitising Hand Gel is appropriate for use with or without gloves. If gloves are required, DermaSoft Sanitising Hand Gel will make putting on the gloves easier and inhibits bacterial growth under the gloves.

Features and Benefit

- Fast and easy application reduces staff down time
- Complements hand washing programs
- No residual colour or odour on the skin
- Non-greasy for safe handling of utensils, etc
- May be used with or without gloves
- Reduces dermatitis through reduced handwashing
- Helps to prevent the spread of bacteria
- Dispensers deliver a metered dose for economy and consistency
- Independent tests have shown DermaSoft Sanitising Hand Gel kills 99.99% (Log 4 reduction) of the following organisms in 30 seconds upon application:
 - Staphylococcus aureus
 - MRSA (Methicillin Resistant Staphylococcus aureus)
 - Pseudomonas aeruginosa
 - E. coli
 - Salmonella typhimurium
 - Candida albicans
 - Listeria monocytogenes
 - Streptococcus agalactiae

Ideal for use by:

- Food processors
- Healthcare workers, nurses or doctors
- Food preparers, chefs and waitresses
- Childcare staff
- Hairdressers
- Laundry staff
- Kitchen hands
- Emergency services officer
- Veterinarians
- Cleaners
- Nursing mothers
- Bank staff
- Colour coded labelling ensures easy product identification

Directions For Use

Apply 2 pumps of DermaSoft Sanitising Hand Gel to the hands and spread evenly over the skin surface to be sanitised. Allow up to 30 seconds for hands to air dry. No other washing or rinsing is required. For soiled hands wash with soap and water before using DermaSoft Sanitising Hand Gel. Store in a cool dry place below 30°C. Clean nozzle regularly.

Appearance

DermaSoft Sanitising Hand Gel is a clear gel that will not stain your skin or clothes. It is very mild on hands due to added moisturisers.

Safety Information

Carefully read the Material Safety Data Sheet (MSDS) before using this product.
